

AUGUST 2019 NRL 22 OFFICIAL COURSE OF FIRE

We hope that your Summer is wrapping up and you are reflecting on good times spent with friends and family.... shooting 22's! This month we are fortunate to have Lynn Bigalow of Hobble Creek Utah lend a hand to veteran COF designer Erik Severson. Looks like a good team and a better COF. Enjoy and remember sun block and water.

Range requirements: NRL22 standard target package, 6 foot ladder, rope, 5 gallon bucket, barrel, folding chair, a cider block and 2" NRL22 targets and target stands for paper targets.

Shooter equipment: Rifle must be chambered in 22 LR or be an air rifle of 30 caliber or less. Rifle Shooter equipment: Rifle must be chambered in 22 LR or be an air rifle of 30 caliber or less. Rifle's are encouraged to have a removable magazine. Scopes with adjustable windage, elevation and a reticle are recommended. Bipods and a rear bag approximately the same size as a volleyball or smaller are also recommended. A sling is a huge aide for positional stages and shooters would benefit greatly from a sling. Special note on equipment, this is a fantastic community. If you are short on equipment, let that be known. The good men and women in this community will fall all over themselves to help you out and lend you theirs.

Safety suggestions: Safety suggestions: Weed whacker plastic string works very well for Empty Chamber Indicators. Using ECI ensures a rifle is not loaded and especially useful for Ruger 10/22's. The stages' starting positions were deliberately set up for safety. Ensure RO's are very close to new shooters and kids, especially in the positional and barricade stages in case the 180 rule is broken or a transition is made without the action open or safety engaged.

Paper stage suggestions: Paper stage suggestions: Have one of the NRL 22 paper targets present at stage briefing so that all shooters can see what it is before they get behind the rifle. Ensure the shooter number is written very large. Because the targets we provide have 2 targets on each one, I have been cutting the targets in half and spreading them out a bit. This seems to reduce crossfires, but they will happen. We are shooting the 2" paper this month. The number of holes per target should be 2, 3, 2, 3. If a shooter accidentally shoots another shooter's target, it benefits the shooter who was shooting at the correct target. However, an RO with a spotting scope ensuring a shooter's target is clean before they shoot will help minimize this. For scoring, the shot just needs to break the line to get the higher points. So if the 10 circle is just barely nipped, that shot is a 10.

Scoring submissions: Download the NRL22 Scores sheet from the downloads section on **NRL22.org**, fill out the results, and submit scores sheet to **matches@nrl22.org**, followed by payment for admin fee. Deadline for submissions is **SEPT 4th**, 2019 Keep in mind that only NRL 22 members are eligible for prizes and while we have a 30 day grace period for membership, if the prizes are already distributed, it is the competitor's loss. The live Facebook show for prizes will happen on **SEPT 11th**, 2019

AUGUST 2019 NRL 22 OFFICIAL COURSE OF FIRE
