

## FT Match Report Arlington Sportsman's Club 5/25/2024

The 10<sup>th</sup> Anniversary Field Target match at ASC has come and gone with old friends and a little fanfare. We semi-re-created the first ASC FT match layout for this 10<sup>th</sup> anniversary match, but the original match was only 22 Troyer difficulty, so we had to turn it up to about 28T, because that is more in line with our shooter's skills. I think if we kept it at 22T difficulty, we'd be there all day for shootoffs, because so many folks would've cleared the course! We had four shooters that were at our first match and came to the match today: me, Ron Robinson, Craig Martin, and Paul Walker (Paul did not shoot today). I have great memories of many shooters who have been with us, but were not present today, and I'd like to wish them a healthy and happy life wherever they are! In total, 21 shooters showed up to compete in weather that was cool and humid in the morning, but rather warm and humid with just a little bit of wind as the day progressed.

The course was 56 shots on 10 lanes with one off-hand lane and one kneeling lane. The average Troyer this month was 28.6, SD 6.03, Avg Dist 26.8 yds, and Avg KZ 0.99".

The scores reflected the slightly easier course today with Scotty H. taking HOA and Hunter PCP division with a 55/56. We settled the tie between Brian S. and Thom D. with a coin-toss; Thom prevailing this month to take 2<sup>nd</sup> with 54/56. David A. won the WFTF PCP division with 52/56. Ron R. beat only himself in Hunter Piston with 37/56. Open class was contested by Craig M. with 39/56. Jerry C. shot in Unlimited class to come home with 32/56. David O. attended his first ever FT match with friend Bob P. and shot very well in the Fun Rifle class. David mentioned he really enjoyed the well setup match and will try to come again in the future. We only had one cold line for a target that didn't fall with a clean hit, so I cleared some lead from the mechanism, and it was reshot successfully.

After the rifle match, we feasted on Taco Casa tacos and told many lies about the match and our shooting prowess. Scott and I handed out ASC poker chips to everyone as a memento of the 10<sup>th</sup> Anniversary match (they weren't special 10<sup>th</sup> anniversary poker chips, just our regular ones). Maybe at our 20<sup>th</sup> anniversary match we'll do better...

Detailed stats are available at <https://airgunshoot.com/> that shows the average score on each lane, your score on each lane, your hit percentage by lane or near/mid/far targets, how you compare to your class average, your class winner, and the HOA winner. Thanks to Scott Cotton

for his work on this, you should be able to tease out some areas where you can improve and hopefully finish higher in the standings.

Our next match will be on Saturday, June 22. I won't be in attendance, but Scott will have it covered. This match will start promptly at 9:00am.

See you at the next next match,
