

.22 Smith & Wesson 78G #5 with factory adjustable trigger

| | | | | | |
|--|-----|-----|----|---|---------|
| 14.3gr Express, 9" RR bbl, 95F, 25 shots | 442 | 470 | 28 | 3 | 462/6.8 |
| 14.3gr JSB Express, 9" RR bbl, 95F, 22 shots | 458 | 470 | 12 | 2 | 464/6.9 |
| 15.9gr JSB Exact, 9" bbl, 82 degrees, 10 shots | 416 | 434 | 18 | 2 | 427/6.4 |

This adjustable-trigger 78G came to me devoid of rifling in the barrel, so I machined a bronze rifle barrel to fit and changed to a stiffer but shorter hammer-spring for these excellent numbers.

5/26/2020- Six consecutive five-shot groups at 25 yards averaged 1.30" c-t-c with 15.9 gr. JSBs.

5/24/2021- Five consecutive three-shot groups at 25 yards averaged 1.20" c-t-c with 14.3 gr JSBs
