

Will Piatt modified .22 AR-6 Hunting Master six-shot PCP revolver with nicely figured walnut stock, excellent condition in all regards. Will installed an 11" Lothar Walther barrel and detuned this accurate hunting pistol to 'only' 20 foot pounds in order to return a bell-curve power-band of 12 consistent shots from a 3400 PSI fill (see below). Detuning also lightened the trigger action, making 1.5" **average** six-shot groups at 50 yards usual; some going groups under an inch. The nicely blued-steel muzzle brake reduces muzzle-bark to a comfortable level without hearing protection. Holds pressure indefinitely. With fill probe and 3 six-shot cylinders (no scope) \$500.
 18.1 JSB, 3400 PSI, 11" barrel, 12 shots- Lo= 696, Hi= 727, ES= 31, SD= 5, Avg= 713 FPS

VERY customized Crosman 2300! Converted to high-pressure air with a PowerMax HiPac gizmo, gray The Exclusive side-lever action/breech, 10" stainless steel barrel, polished grip frame, trigger mods and shoe, power adjuster, and stippled walnut Corcoran grips. Excellent trigger action, very accurate, and holds pressure indefinitely. Pistol only- \$325. Latest testing- 15.9 AA, 1900 PSI, 15 shot powerband- Lo= 463, Hi= 499, ES= 36, SD= 9, Avg= 478 FPS/8.1 FP
 18.1 JSB, 1900 PSI, 15 shot powerband- Lo=429, Hi= 461, ES= 32, SD= 11, Avg= 444FPS/7.9 FP
5/9/2021- 3 consecutive 5-shot groups at 25 yards with 15.9s @ 110 BAR averaged .62" c-t-c.
5/9/2021- 3 consecutive 5-shot groups at 50 yards w/15.9 JSBs @ 110 BAR averaged 1.34" c-t-c.

.177 Benelli Kite regulated ten-meter PCP pistol. Yes, THAT Benelli also makes a very nice ten-meter pistol. In fact this one captured a 2012 Field Target National Champion title with a 39/40 score. She's in excellent condition, with factory locking aluminum case, charging adapter, manual and papers. Cased pistol (without scope pictured) \$500.

From my notes-
 8.44gr JSB Exact, 10 shot string, as received- Lo= 454, Hi= 469, ES= 15, SD= 3, Avg= 463/4.0
 8.44gr JSB Exact, 10 shots, power maxed- Lo= 506, Hi= 521, ES= 15, SD= 5, Avg= 513/4.9

Sixties/Seventies vintage Robinson-customized .22 Crosman 600 semi-automatic Co2 pistol. Carbon-fiber shrouded 12" barrel, nicely figured walnut aftermarket grips. Holds pressure for months. Pistol only \$325. With 2X Nichols pistol scope pictured \$375. From my notes- 11.9 gr RWS Hobby, 70F, 23 shot p-band- Lo= 469, Hi= 513, ES= 44, SD= 11, Avg= 493/6.4

.22 Smith & Wesson Model 78G Co2 pistol in excellent condition. This is the most highly sought-after early model 78G with the adjustable trigger. Out of production for decades, the 78Gs are some of the most powerful production Co2 pistols. I machined a bit longer barrel to fit, and refinished the nice custom walnut grips with my superior bow finish. Holds pressure for weeks. Pistol only with attached scope rail \$300. Pistol with T/Center 3X scope pictured \$385. From my testing notes- 14.3 JSB, 9" barrel, 95F, 25 shot powerband- Lo= 442, Hi= 470, ES= 28, SD= 3, Avg=462/6.8
