Air Arms TX200 .22 Beech Carbine

[Click to zoom](#)

Air Arms TX200 Beech Carbine

- Solid Well Built
- Field Target Accuracy

One look at the TX200 MkIII Carbine is all it takes to see the quality built into this air rifle. The distinctive richness of the woodwork is obvious and the finish is deep and flawless. Put these features together with a top quality underlever airgun. And in addition, the TX200 Mk III Carbine sports a very predictable release point and an activated by simply cocking the gun.

After reading about all of the standard features of the TX200 Carbine, it seems perfectly reasonable to level matches the same high standards. Carbine. The TX200 MkIII Carbine prove high velocity without sacrificing accuracy. The TX200 MkIII Carbine produced an average muzzle velocity of 900 feet per second using Crosman Premier 7.9 grain pellets averaged a muzzle velocity of a week. And unbelievably, the results about noise and only moderate recoil. For .22 caliber fans, the results were also 14.3 grain Crosman Premier pellets yielded 725 feet per second. That's more than enough for a heavier .22 caliber pellet. And, of course, retained the accuracy for which it has been famous.

What does all this add up to for the average buyer? Well, ever purchased something and then wondered if it was the right buying decision? Well, it means second-guess whether one made the right choice. That says it all!

Technical Data for the Air Arms TX200

| | |

Velocity Test Results for the Air Arms TX200 Carbine

| Straight Shooters Use Score | | | | | | | |
|-----------------------------|--|-----------------|--|--------------|--|---------|--|
| Plinking | | Target Shooting | | Pest Control | | Hunting | |
| 5 | | 5 | | 5 | | 4 | |

The TX200 lives up to its reputation as a superb, well-built air rifle in .177 and .22 caliber. The rifle is smooth and quiet with plenty of power for any task from field target in .177 caliber to pest control and hunting in .22 configuration. The stock is heavy but balances beautifully which makes it a stable shooting platform.

The velocity results will convince most people that the rifle has more than enough power to handle any shooting situation. We were quite pleased not only with the velocity in both calibers but also with the smooth firing nature of the rifle.

It is no wonder that the TX200 has such a good reputation for quality and accuracy in the airgunning community and is the airgun of choice for many field target competitors.

.177 Caliber Pellets
