Velocity Test Results for the Weihrauch HW50s

Straight Shooters Use Score

Plinking	Target Shooting	Pest Control	Hunting
5	5	4	4

The Weihrauch HW50S is a light powered, light recoil rifle of good quality and acceptable power. The rifle is available in .177 and .22 and both calibers will provide excellent performance. If you prefer higher velocities, consider the .177 caliber version. If higher knock-down power is needed, we would recommend the .22 version. Both calibers will provide you with power to target shoot and hunt backyard pests.

**.177 Caliber Pellets**

## H&N Baracuda 20

I recently purchased a Theoben MFR in .20. It was tuned to run on the Beeman Kodiak heavies. Knowing that these were those I bought four tins. Should have bought 8! Exceptional shooting pellet. They were also great shooters out of another .20 cal rifle I have. A custom Lothar walther barreled Crosman. So far only shot out to 50 yards. Went through a full tin in only three days of shooting.
